

keras

	Fill in	Note
Name of the software	keras	
Developer	Raghavendra Kotikalapudi	
Version	keras 0.1.4	
Year of publication	28.04.2019	
Description of the software	keras-text is a one-stop text classification library implementing various state of the art models with a clean and extendable interface to implement custom architectures.	
Link to the software	https://keras.io/	GitHub: https://github.com/keras-team/keras
Is it open-source software?	YES	
Is it free software?	YES	
License	MIT	
Does it cost to use?	NO	
Does it collect any personal data?	NO	
Does it respect the right to forget?	NO	
Application logs	YES	

Does it contain an online user guide?	https://keras.io/getting-started/functional-api-guide/ https://keras.io/getting-started/sequential-model-guide/	
Hardware configuration	No information.	
Software configuration	No information.	
Text data visualisation	YES	
Does it analyse pictures/photos?	NO	
Multiple languages	YES	
Third-party software products integration	YES	
Cross-platform support for desktop, tablet and mobile users	NO	
Scalability	Scalable	
Automatically creates database	NO	
Uses AI	YES
